

LED LINEAR WASH LIGHT

Canara High quality LED wash light consist of LED's, having various beam angles support a variety of light distribution for different applications, including floodlighting, wall grazing and asymmetric wall washing.

FEATURES

- Allows perfect control of color temperature and light output level.
- High quality of light gives perfect color homogeneity on output window.
- The brightness can be controlled by DMX512 signal and manual control, the adjustable range is 0-100%.
- Specially designed heatsink with aluminium extruded channels for effective passive cooling system.
- High lumen output, higher efficiency, energy saving up to 60%, Eco-friendly and high luminous efficiency and excellent heat dissipation structure.
- Inbuilt driver/out built driver options.
- IP66 grade waterproof, all-weather outdoor use.
- Available in optional beam angle lenses.
- Environmental friendly and free from UV, IR or Mercury.

SPECIFICATIONS

LED power : 12W/15W/18W/24W/40W/
60W/80W/100W/120W/150W

Power Supply : 240V AC/24V DC

Color : RGBW/Single color

Protection rating : IP66/IP20

Beam angle : 12°/20°/30°/45°/60°/Asymmetric

Control : DMX 512 or On & Off control

Body : Extruded aluminum body

Dimension : L300mm/L600mm/1000mm
options

Product Code : CAN LED WW12

CAN LED WW15

CAN LED WW18

CAN LED WW24

CAN LED WW40

CAN LED WW60

CAN LED WW80

CAN LED WW100/120/150

Applications :

Outdoor Landscape lighting such as hotels, shopping malls, buildings and bridges.
